No.	Id	Topic	Date	Rational	Mark
1	5410547632	Test management tools	04.03.16	Very good online demo. General aspects of test management tools (demands, criteria) not discussed. Presentation was aligend to the Meliora testlab tool, e. g. test process. Presented tool "Wrike" is not a test management tool.	B
6	5810045120			Exercise not really related to test management tools. Reporting not mentioned, defect management shortly discussed. Topics out of focus addressed (like "features not tested")	B
2	5510545976	TDD, Unit Tests	10.03.16	Very good online demo of TDD. Good introduction with pros and cons, advice of usage. Good TDD examples Interesting additional discussion of BDD, classical vs Mockist testing	B+
5	5510546671			Difficult to follow for non technical students Exercise was not really possible for the students to execute Basic concepts of Unit testing explained only roughly.	B+
3	5510546221	Test automation tools	11.03.16	Good presentation with an overview Easy tasks showing the basic concepts of Selenium test automation Good support for students during exercise No overview about criteria concerning test automation to have a basis for evaluation (but some	B
4	5510546654			topics mentioned during presentation) Focus only on Selenium; more complicated tests have not been shown No presentation of "good tests" -- like deleting all items created to have a comparable status to	B
