Overview / Introduction

Example

- Who are we?

- What is our goal?

Example What did we do?

- We created Test Cases, *documented in ...*

- We were developing the specification, *current version available at ...*

- We compared two tools

  - Criteria

    - should be easy to install and to use

    - should be flexible with status and reports

  - Done

    - download / install / ...

    - examples entered / report generated

Example What did we do? Comparison

- **Tool A**

+ easy download

+ nice GUI

− no examples

− report not configurable

- **Tool B**

+ easy download

+ nice GUI

+ fast

− no Internet version
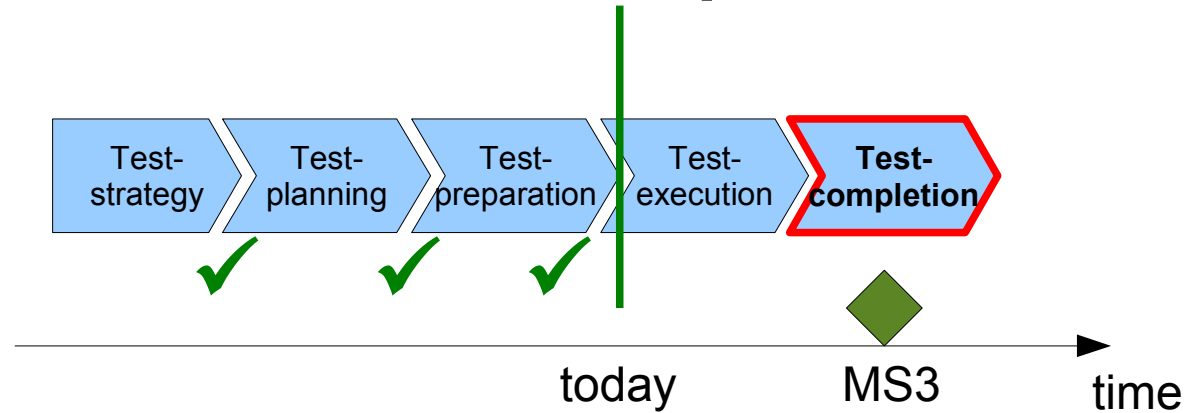

− reports difficult to configure

Recommended

Current Status

- This and this went great

  - Good feedback from other groups ...

  - found interesting bug ...

- Here we have some problems

  - Don't know where to put files

  - Next milestone: One requirement could not be met

Next steps

- Until next mile stone we will
  - Show prototype
  - collect feedback
  - do an overall plan

Summary

- We implement the best Clock ...
