## **Airbag picture**

I am looking for a current image, that shows a section of a car, where one can see very well many airbags.  
Independent which car. Optimal is a drawing, I guess.  
Thanks a lot!!

**S.G.**

**either...**

you take the picture attached or you simple type 'airbag' in [www.google.com](http://www.google.com), and don't look the keyword in text-format, in google there is a possibility to look explicit for images =)

A.F.

Hm ...

should I take the picture? ... in actual fact it is no car, ...  
I would like to look at google ... but in the moment I do  
not have Internet access ... and I thought for myself ...  
as I work with a car facturer ....

T.V.

**re: Airbag picture**

Got an image about a red car  
;-)

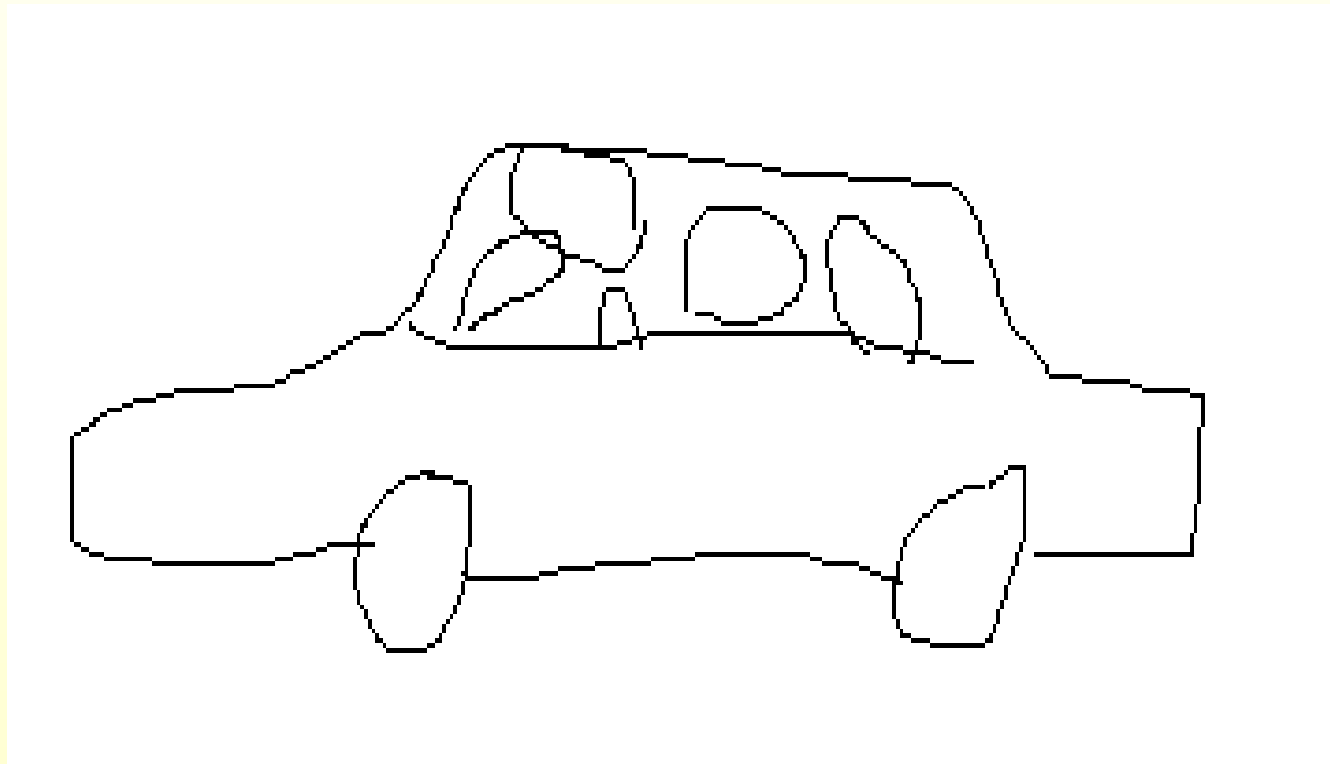

A.F.

**No .... wrong direction ...**

... but the approach is already amazing!

R.P.  
airbag image

**A.F.**

**I am highly impressed ...**

... you approach my wished image step by step ...  
maybe a little more technical?

K.D.

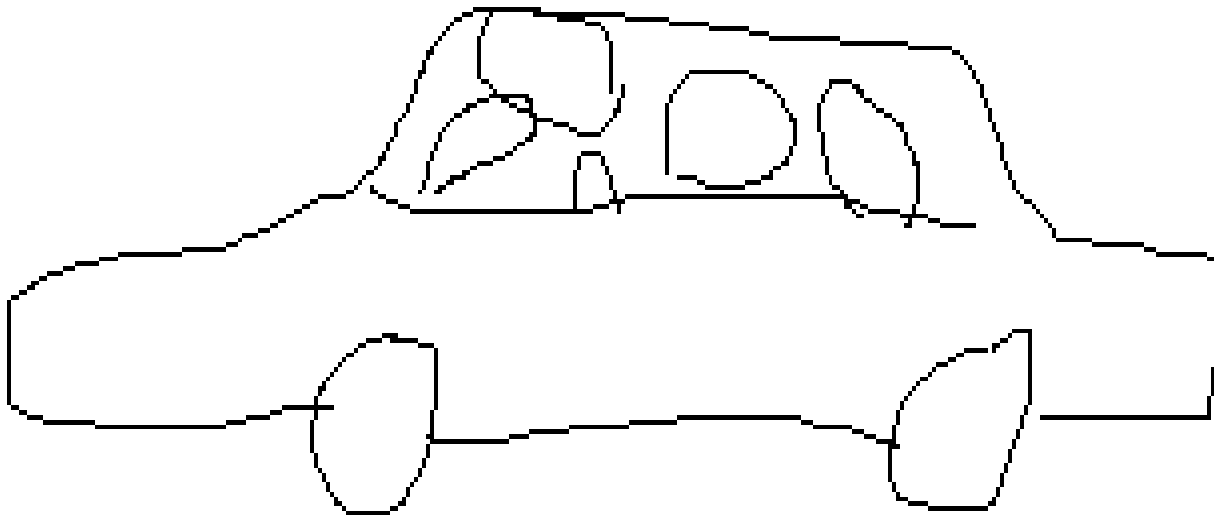

## Airbag

But now.

Ups, I guess I violated copyright, sorry.

\*giggle\*

Nice weekend

engineering drawing

A.F.

**Aahh .... this is an engineering ....**

... drawing. Yes, now, where it's label, I see it as well ....  
nearly anyway ... but I think ... hm ... the really right  
thing it isn't yet ... what a shame

T.V.  
**Airbag**  
or like this

A.F.

**Hey ....**

... great! Really nice pictures! Thanks a lot!!!

Greeting

A.F.
