What do you think is this instructor's greatest strength?

Experience, Knowledge and Skill and Teaching, Nice & Friendly (We feel free to ask question if we don't understand), very greatest strength, The kindness of instructor, Some time can't catch your english (possible my fault), Make the class in ease, feel free to ask, Try to make lecture easy to understand, He great in software testing, I think instructor have a great person, he is good man and understand student, Know and have information of this subject very much, easy to communicate and get great opinions, yes, he is, nice smile ☺ lively and kind, I think, yes. :) Easy to understand explanation, rephasing, examples, his experience, knowledge

What suggestions would you give to improve this instructor's teaching?

More pictures in the slides would be great, I think if we have a Lab for this class it will absolutely better, no, Some topic seems hard to have image, so maybe need more example, And I think I need some basic in using some management tools too (But I think you teach very well :D), I think the example is not quite clearly. I want to see the clearly example, Give homework for more understand, some word or sentence either test or presentation is really hard to understand for Thai people, None, None, none, no I don't have, -, Teacher never make me feel too serious, when I have a misunderstand, the teacher always try to explain in an easy way to make me understand. Interactive media, activities, nothing, And I'd like to study with him again

Approximately how many class meetings have you attended so far?

7+ so far, 10 times, all the class!, skip 1-2 class, 90 %, Nearly all class, 80 %, more than 80%, cannot remember, I miss class sometimes, almost, every class but I've come late once, 80%, all, Maybe one time, that I absent. Everytime ☺, never absence
